

Chemical Society of Washington

Career Pathways: Working in Higher Education

The Chemical Society of Washington is holding a Career Workshop by Dr. David Harwell, Assistant Director, ACS Career Management and Development. In this extensive workshop you will learn how to prepare and apply for an academic institution job, pros and cons of a career in academia and job opportunities within the four main types of academic institutions. You will also explore what you can expect during your first year in academia and what you can do during that year to lay the foundation for success.

Date: Saturday, June 15, 2013

Time: 8:30 am - 12:30 pm

Cost: Free

Location: ACS Headquarters, 1155 Sixteenth Street NW,
Washington, DC

RSVP: Make reservation by noon, June 12th at
csw@acs.org

David Harwell is the Assistant Director for Career Management and Development at ACS. In his job, he works with chemical professionals throughout their careers. He is a chemist by training and a career counselor by profession. Before joining the staff at ACS, Dave was a faculty member at the University of Hawaii focusing on silicon nanoparticles and supramolecular structures.

For more information, contact the CSW (202-659-2650 or by email: csw@acs.org) or Dr. Ajay Mallia (vajaymallia@gmail.com).

Organized by the CSW-YCC.
